# SETEMI LOYE

Aspiring software engineer & web developer |
https://github.com/Setemil

## OBJECTIVE

Highly motivated Computer Science student with practical experience in network administration, web development, and cybersecurity. Seeking to leverage strong problem-solving and technical skills in a challenging software engineering position.

## SKILLS

- HTML, CSS, JavaScript, PHP, Python (basic), Git/GitHub
- Group Leadership and Teamwork.
- Time Management and Task Coordination
- Problem-Solving and Communication.
- Proactive Learning and Adaptability to Change.

## EXPERIENCE

**INTERN • HIIT PLC • JAN 2024 – JUN 2024**
During my tenure, I engaged in networking exercises, including cable crimping, local network setup for office environments, and security camera installation. Furthermore, I completed a certified ethical hacking course and participated in a Capture the Flag (CTF) project.

## EDUCATION

**BSC COMPUTER SCIENCE • JULY 2025 • BABCOCK UNIVERSITY**
**CGPA**: 3.9 / 5.0 (Second Class Upper Division)
**Relevant Coursework**: Web Application Development, Internet Technologies, Web Development, Data Structures & Algorithms, Database Systems, Object-Oriented Programming, Software Engineering

## VOLUNTEER EXPERIENCE OR LEADERSHIP

Led my project team through our final year project, which aimed to develop a career guidance platform. The platform's objective was to assist individuals with limited or no prior knowledge of various IT skills, either by providing them with new knowledge or by enabling them to enhance their existing skills.

Led a team in constructing a maritime emergency platform that facilitates emergency monitoring for users of ships and other sea-based vehicles. This platform was developed for our web development course in school.
